

#### Good Afternoon,

To give WSWA members a national overview of the COVID-19 impact, WSWA has aggregated the most critical state information including **changes to the state legislative sessions and orders to close restaurants, bars, and retail stores** due to the COVID-19 pandemic.

We are also aggregating emergency rule-makings aimed at allowing or **expanding alcohol beverage delivery from retailers and on-premise licensees** (see Arkansas, California, Delaware, DC, California, Colorado, Florida, Kentucky, Louisiana, Maryland, Montana, Nebraska, New Hampshire, New York, Oregon, Texas, Tennessee, Vermont, Virginia) as well as other executive orders that will impact wholesalers, such as credit and return laws (see Arizona, California, Iowa, Illinois, Nebraska).

**Special Note:** We wanted to highlight that yesterday, Monday, March 24, Denver gave the country a preview of the unintended consequences of liquor store closures during this time. A mislead policy aimed at protecting public health removed the "Essential" status of the city's liquor stores, triggering massive crowds of people at their local stores before closing - exactly the type of mass gatherings the city was intending to prevent, see here. In Colorado, spirits are not available in other retail outlets like grocery stores. After seeing the impact the order was having on local businesses, the Wine and Spirits Wholesalers of Colorado worked quickly with other wholesalers and retail partners to get the mayor to reverse the order within hours.

The situation in each state is evolving rapidly and to the best of our ability this list will be updated daily and emailed every afternoon. **Please reply to this email** to continue to send the WSWA State Affairs Team information from your state including any work you are taking to help craft emergency rules as well as any stories about wholesalers helping your communities during this difficult and uncertain time.

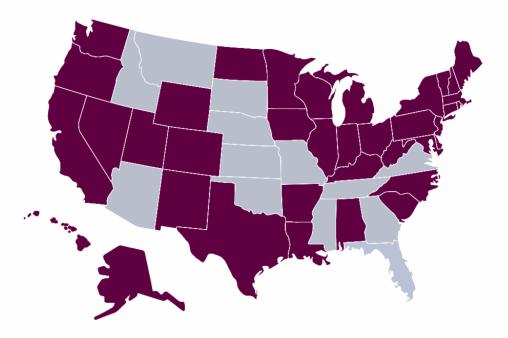

As always, do not hesitate to let us know how we can assist.

Sincerely, Michelle
